01 PROFILE

DevOps Engineer with 5+ years of experience leading infrastructure initiatives across outsourcing projects and internal products. Sole DevOps in a multi-team environment, managing cloud migrations, CI/CD processes, and platform reliability.

Worked with international teams on projects in fintech, healthcare, gaming, and government. Supported partners during critical incidents, helping restore systems and strengthen infrastructure security.

Motivated by continuous growth and committed to delivering high-impact, scalable, and cost-efficient DevOps & Infrastructure solutions that drive business value.

02 SKILLS

Linux	Bash
AWS	Git
Docker	Ansible
Kubernetes	MySQL
Flux CD	PostgreSQL
Terraform	Grafana
GitLab CI	Prometheus
Python	

03 EMPLOYMENT HISTORY

12/2022 — Present

DevOps Engineer at Mind Studios

- Sole DevOps engineer managing infrastructure for 20+ outsourcing and internal projects, covering a wide range of domains and tech stacks.
- Migrated legacy systems to containerized and Kubernetes-based setups, reducing technical debt and improving maintainability.
- Built and maintained cloud environments in AWS, GCP, Azure, Hetzner, and OVH with a focus on cost-efficiency, scalability, and high availability.
- Provisioned and supported EKS clusters using Terraform for both staging and production environments.
- Set up and maintained observability stacks including monitoring dashboards, alerting rules, and asset management systems to enhance system transparency.

- Supported partner teams during critical incidents, assisting in infrastructure recovery and implementing preventive security measures post-incident.
- Delivered infrastructure for projects in fintech, healthcare, mobile gaming, and EU government systems, adapting solutions to industry-specific needs.
- Automated core DevOps workflows, including CI/CD pipelines, deployment processes, backup systems, and routine updates, reducing manual workload and errors.
- Provided day-to-day support to development and QA teams, helping troubleshoot environment issues and optimize delivery pipelines.
- Initiated and documented internal DevOps standards, contributing to better onboarding and team alignment.
- Initiated and actively participated in architectural discussions, influencing infrastructure decisions and aligning solutions with business goals.
- Designed a detailed roadmap for DevOps department adoption and team scaling, covering infrastructure standardization, process automation, and technology stack alignment.
- Implemented and actively advocated DevOps principles to improve collaboration, system resilience, and delivery efficiency across engineering teams.

02/2021 — 11/2021

Support and Maintenance Engineer(DevOps) at-
Sigma Software

- Worked on infrastructure support for a microservices-based project.
- Created and maintained monitoring dashboards to track system health.
- Applied regular updates and changes to keep infrastructure stable and up to date.
- Automated routine tasks to simplify daily operations.
- Helped improve overall reliability and reduce manual maintenance.

02/2019 — 10/2020

DevOps Engineer at Computerstein and CO

- Progressed from intern to full-time DevOps Engineer.
- Worked on creating and maintaining cloud infrastructure in Azure and AWS for British American Tobacco.
- Participated in weekly meetings with development teams to coordinate infrastructure needs and improvements.
- Handled daily website deployments and provided ongoing support and discussion during daily stand-ups.
- Implemented Infrastructure as Code to improve consistency and reduce manual configuration.
- Automated routine tasks to streamline deployment and maintenance workflows.

04 EDUCATION

Sep 2021 — Feb 2023

Ukrainian State Chemical Technology University   *Dnipro*

Master

Computer Engineering

Sep 2017 — Jul 2021	**Dnipro University of Technology**	*Dnipro*

Bachelor

Computer Science

05 CERTIFICATIONS

Apr 2024 — Apr 2027	**AWS Certified Cloud Practitioner**

Mar 2025 — Mar 2027	**FinOps Certified Engineer**

06 COURSES

Sep 2019 — Jan 2020	**DevOps [Dnipro] Online Autumn at EPAM**

Jul 2024 — Sep 2024	**Cybersecurity Manager at Hillel IT School**

Sep 2024 — Dec 2024	**Business analysis at Hillel IT School**
